

**BEIJING TIDELION S&I RAINWATER**

**HARVESTING TECHNOLOGY CO., LTD**

**TIDELION**

# ABOUT TIDELION

## Introduction:

Beijing Tidelion S&I Rainwater Harvesting Technology Co., Ltd has been in the field of rainwater resource and management for the last eighteen years. Tidelion has been a leading sponge city model provider and is determined to provide efficient solutions in the wake of the development of several smart cities.

## Business with 1<sup>st</sup> Page Rank:

Tidelion joined hands with 1<sup>st</sup> Page Rank in 2020 where he needed more projects of rain water harvesting systems.

1<sup>st</sup> Page Rank looked after his Website Development, Website optimization on Search Engines & It's Social Presence on Multiple platforms.

The screenshot shows the Tidelion website interface. At the top, there is a navigation menu with links for HOME, ABOUT US, OUR SOLUTIONS, PRODUCT CENTER, OUR PROJECTS, NEWS, and CONTACT US. A LANGUAGE dropdown menu is also visible. The main hero section features a large 3D architectural rendering of an airport terminal with a central water feature, overlaid with the text "LEADING PROVIDER OF SPONGE CITY CONSTRUCTION INDUSTRY CHAIN" and "Small scaled Water Body Treatment". A "Contact Us" button is positioned below the text. Below the hero section, there is an "About Us" section with a brief description of the company's history and services. To the right of the text are two small landscape images. Below the "About Us" section is a "All Solutions" menu with expandable categories: "Rainwater Collection & Utilization System", "Rainwater Storage System" (with a dropdown arrow), "Rainwater Treatment System" (with a dropdown arrow), and "Rainwater Reuse System" (with a dropdown arrow). Under "Rainwater Storage System", there are sub-items: "Ground Water Storage Tank" and "Underground Water Storage Module". Under "Rainwater Treatment System", there are sub-items: "Ground Treatment Room", "Underground Treatment Room", and "Intelligent Rainwater Treatment Machine". To the right of the menu are two images: one showing a "Ground water storage tank" and another showing an "Underground water storage module". Both images have "View Details" buttons below them.

## Our Solutions

- Rainwater collection and utilization system
- Roof rainwater drainage
- Drainage on the same floor
- Infiltration of ecological ground system water products
- Rainwater smart management system
- Drainage System Design Consultation

## Smart Rainwater Management & Drainage System Solution

### Roofing Rainwater Drainage and Collection System

Roofing rainwater drainage and collection system has dual function of rainwater drainage. Following the flow pattern on the roof rainwater drain line, the system includes three systems namely gravity flow, water pressure flow and suction flow. Rainwater in gravity flow system is normally flow rainwater or low-pressure flow system is implemented on account of all water to pipeline, however in suction flow system is fully filled on way. Different system about every professional roof drain.
